

6 November 2019

Dear parents/ carers,

Year five have organised a planetarium visit on Monday 18th November. This is a great opportunity for the children to further explore space, the international space station, different star constellations and much, much more! The session will run during the morning and will cost £4.66 per child, which can be paid via Parent Pay. The planetarium will not interfere with the normal school day, so the children can be brought and picked up from school at the usual time.

We are really looking forward to the children enhancing their learning through this in school visit. Could you please complete and return the permission slip by Friday 15th November.

Many thanks,

Miss Cheesman and Mr Turner
(Year 5 teachers)
